

# Beautifully-crafted, responsive website design.

I help people realize their ideas online.  
And I do it with knowledge, passion, and love.

ORDER

## ABOUT

### Strategy

I never talk to my clients. I build with them and transform their ideas into well thought out design solutions.

### Responsive

Your website will work on any device.

### Design

I create beautifully-crafted websites focusing on intuitive UI patterns and simple interactions. I'm a minimalist who truly believes that less is more.

### Multilingual

Your site will be available in any language.

## ME

Currently, I am a freelancer, working as a UI/UX Designer and front-end developer. Realizing ideas and creating beautiful, intuitive design is my passion.

For my working process, I usually use Sketch, InDesign, XDesign, Photoshop and also like trying out other technologies in order to become more flexible.

When I'm not pushing pixels or coding, you'll find me in the gym or swimming pool.

Since I consider myself a creative personality, site development is a pleasure for me. So I can be useful to other people, embodying and realizing their ideas online – it has become a good decision for me to choose this kind of activity.

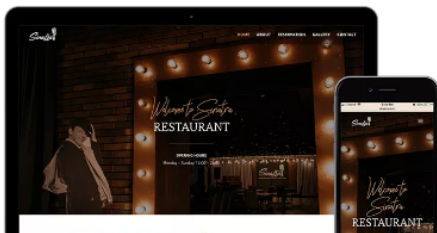

## WORK

### Thunderdogs

Thunderdogs is a progressive rock 'n' roll band from Lviv, Ukraine.

Elegant Theme Responsive design WordPress

### Sinatra Restaurant

"Sinatra" is a stylish place with delicious meat cuisine, high-quality alcohol and a selection of musical programs every day.

Google Maps API Responsive design WordPress
